Fluke Networks  
6920 Seaway Blvd.  
Everett, WA 98203

Eurolan AB is pleased to announce that the Fluke Networks DSX-5000 CableAnalyzer has been tested and approved and is fully compliant with the requirements of our certification and warranties program.

Testing in our labs utilizing an Agilent Network Analyzer we verified DSX-5000 CableAnalyzer performance. Laboratory tests confirmed excellent correlation between DSX-5000 and Network Analyzer results for all required certification test parameters.

We recommend DSX-5000 CableAnalyzer for use in Permanent Link and Channel certification testing.

Sincerely,

**Gordey Babaevskiy**
