Everett, WA 98203

Subject: Hubbell's approval of Fluke Networks's Versiv/DSX-5000 Cable Analyzer™, CertiFiber® Pro Optical Loss Test Set and OptiFiber® Pro OTDR

Hubbell Premise Wiring has evaluated the Fluke's Versiv/DSX-5000 Cable Analyzer using the DSX-CHA004 channel adapters and DSX-PLA004 link adapters for testing to standards, based on electrical transmission performance parameters and diagnostics of channels and permanent links using Hubbell NEXTSPEED™ cabling infrastructure solutions and components. Hubbell Premise Wiring laboratories have certified testing against respective TIA Category 6A/ISO Class EA, TIA Category 6/ISO Class E and TIA Category 5e/ISO Class D copper cabling standards limits and have found test data to correlate with laboratory grade network analyzers. Hubbell Premise Wiring also tested Fluke's Pro Optical Loss Test Set and OptiFiber Pro OTDR and have found consistent, accurate results on all laboratory grade test measurements.

Please utilize this letter as Hubbell's approval of Fluke's Networks's Versiv/DSX-5000 Cable Analyzer™, CertiFiber® Pro Optical Loss Test Set and OptiFiber® Pro OTDR

Please don't hesitate to contact me for further assistance regarding his matter.

Michael R. O'Connor RCDD, NTS
Director - Datacom Marketing
