Dear Christian

Datwyler Cabling Solutions AG has evaluated the VERSIV / DSX-8000 CableAnalyzer™ in our laboratories. The test results obtained with this field tester correlate very closely with tests performed with laboratory equipment as well as the DTX-5000.

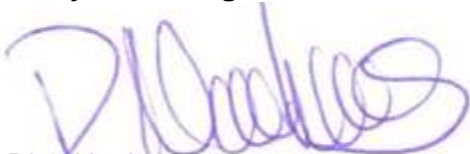

Therefore, we endorse the VERSIV / DSX-8000 and below adapters for field-testing of our Datwyler Cabling Systems.

- Permanent Link Adapter DSX-PLA804
 - Channel Adapter DSX-CHA804
- ... for use in testing Class D, E and EA System Installations and

We look forward to a continued cooperation and future opportunities to evaluate Fluke Networks products that can be used to test and certify our cabling installations in the field.

Yours faithfully

Dätwyler Cabling Solutions
