

## New Pro-Tool Kits IS40 and IS50

The most essential tools for electrical and telecom technicians in the most compact pouch available.

The Pro-Tool Kit IS40 ✓ and the Pro-Tool Kit IS50 ✓ include the following:

### ✓ **D914S™ Impact Tool**

The D914S Impact Tool provides better comfort and performance through a new ergonomic design. A soft rubber handle and rounded edges provide a better grip to reduce hand fatigue, especially while performing numerous wire terminations. It has all the same great features as the industry standard Harris D914 Impact Tool, works with all Harris industry standard blades, and is backed by a Lifetime Warranty.

### ✓ **D814™ Impact Tool**

The D814 Impact Tool is a unique all-in-one punch-down tool that enables installers to make more efficient connections with much less effort than other wire termination tools. With a variety of interchangeable blades, the D814 impact tool is an essential part of an installer's tool pouch.

### ✓✓ **Electrician's D-Snips™**

D-Snips offer a unique ergonomically-designed handle that leverages your power, providing 1-1/2 times the cutting force with half the effort. The special "tail" on the handle that provides the added leverage also minimizes hand fatigue. Cuts are faster, cleaner and safer.

### ✓✓ **Cable Stripper**

Adjustable cable cutter and stripper for round cables, UTP/STP telephone and data cables, and other flexible cables.

### ✓✓ **EverSharp™ 66/110 Cut Blade**

Through special processing of the metal, the EverSharp 66/110 combo blade stays sharper 3 times longer than other competitive blades. Sharper blades provide better termination at the block, leading to quality installs.

### ✓ **ProbePic**

This handy, pocket-size insulated probe has multiple uses. The probe end can be used to check for loose or damaged connections or to spread apart wires for direct access.

### ✓✓ **Case**

Durable compact neoprene pouch with metal clip for belt.
